

NAEEM SHANAVAS

Computer Science and Cybersecurity Student

Location: Eranakulam **Phone:** 7591947969 **Email:** naeemshanavas@gmail.com

LinkedIn: linkedin.com/in/naeem-shanavas **Portfolio:** <https://legacyosint.github.io>

PROFILE

I am a Motivated cyber security enthusiast and Python developer with hands-on experience building practical security-focused and automation projects. Skilled in scripting, problem solving, and backend logic, with projects ranging from an OSINT chatbot to various Python-based tools. Actively learning modern security practices and software development, with a focus on creating useful, real-world applications while strengthening both analytical and coding skills.

PROJECTS

- **OSINT Chatbot** : A simple AI chat bot with open source intelligence, recognizes images and scrapes details about websites, gives you codes and finds geo-locations via images (<https://osint-chatbot.onrender.com>).
- **More coming soon..**

GITHUB & TECHNICAL EXPERIENCE

- **GitHub:** github.com/legacyosint
- Developed a simple AI chat bot with open source intelligence that recognizes images and scrapes details about websites, creates codes and finds geo-locations via images.
- Actively contribute to open-source repositories, focusing on secure coding practices and automation tools.

SKILLS

- Problem solving and analytical thinking
- Adaptability and continuous learning
- Team Collab skills (hackathons, group projects)
- Organization and time management skills
- Linux tools

CURRENTLY LEARNING

- React.js
- Node.js
